

Position: Certified Irrigation Designer

Delta Water Products is actively looking for a Full-Time Drip Irrigation Designer/Draft person for our Kamloops and West Kelowna locations.

Position: Drip Irrigation Designer

Location: Kamloops

Purpose: This position's primary responsibilities are to support our Ag sales team with CAD drafting and hydraulic design of drip irrigation systems and other irrigation designs in general. The designs would include Take offs of Irrigation components which are then quoted out by our sales group.

Job Duties and Responsibilities

- ∞ Drawings and maps completed with detail to facilitate creation and installation of the drip design.
- ∞ Survey and assess sites as required
- ∞ GPS field mapping as required
- ∞ Prepare drawings and as-builts
- ∞ Use AutoCAD for installation details drawings
- ∞ Use Irricad software for hydraulic design and calculations
- ∞ Create take-offs and material lists for quotes

Competencies

- ∞ Irrigation knowledge of components and system use commercial and residential.
- ∞ Strong experience using computer software
- ∞ Preferred experience with AutoCAD
- ∞ Previous experience with an Irrigation software such as Irricad is an asset.
- ∞ Experience in creating plans, map, and layout design.
- ∞ Ability to identify areas for improvement and contribute to potential solutions
- ∞ Ability to work independently and as a part of a team
- ∞ Strong task orientated individual
